

CLEAN WEB BROWSER – INTERNET EXPLORER (MICROSOFT)

Instructions for deleting **Temporary Internet Files** in **Internet Explorer** browser.

Steps to follow

In the browser window press **Ctrl + Shift + Del**. The following window will appear:

Unmark option **Preserve Favorites website data** ¹ option (in case it was marked).

Mark **Temporary Internet Files** ² option. Then click on **Delete** ³.

That's all. The browser has made the cleaning and there are not obsolete data left that could obstruct the right functioning of this and other websites.

REMEMBER TO PERIODICALLY PERFORM THIS PROCEDURE. ALSO YOU MUST DO IT ANY TIME YOU OBSERVE ANOMALIES IN THE FUNCTIONING OF THIS WEB OR OF OTHER WEBS OR PROGRAMS BEING OPERATED BY THIS BROWSER.

NOTE. In case the instructions given here do not suit completely your version of **Internet Explorer** remember that the objective is the deletion of what **Internet Explorer** calls **Temporary Internet Files**. Follow whatever path that leads you to the point where such deletion can be made.
